

## **2002 Membership Dues Renewals and Membership Directory**

**By now many of you should have received your 2002 AGL&F Membership Dues Renewals. If you have not received them, please let AGL&F Headquarters know (202.742.2453). Every member that has not renewed will be notified of that they have not paid their renewal. It is important that you pay your annual membership dues as soon as possible as we are beginning the first stages of compiling the 2002 Membership Directory. Members who have paid their dues will receive proof sheets of the information that we intend to print in the directory about the member company and other additional delegates. It is very important for you to double check our records, sign the bottom sheet and fax back the proof sheet so that we can verify your contact information. The membership directory is a very valuable publication and is free to every member of the AGL&F. Its usefulness is immeasurable when you need a to find a business contact for our specific industry. The directory will be distributed at the Spring Conference to attendees and mailed to those who cannot attend.**
